PUBLIC HEARINGS AND QUASI-JUDICIAL MATTERS

<u>MOTION – APPEAL OF PLANNING COMMISSION'S DENIAL OF 200 YACHT CLUB</u> <u>DRIVE PROJECT</u>

Mr. Rubin explained that Robbins NPB LLC, the owner of the property located on the southeast corner of Yacht Club Drive and U.S. Highway One and the applicant for the 200 Yacht Club Drive proposed project, filed an appeal of the Planning Commission's denial of a requested waiver pursuant to Section 45-51(6) of the Village Code, which allows the applicant or any interested party to file an appeal to the Village Council on any waiver decision. That section further provides that "such an appeal will also function as an appeal of the site plan and appearance review application."

Brian Seymour, Attorney with Gunster Law Firm, introduced himself and stated that he would present on behalf of the property owner, Robbins NPB LLC. Mr. Seymour explained that the Council's role was to decide whether or not there was evidence to support the Planning Commission's vote to deny the project finding that the waiver of Section 45-31(G)(3) of the Village Code that required a seven-foot perpetual sidewalk dedicated to the Village along the U.S. Highway One frontage did not meet the criteria for a waiver set forth in Section 45-51 of the Village code. Mr. Seymour stated for the record that the appeal was solely based on the Planning Commission's findings that the waiver did not meet the criteria set forth in Section 45-51 of the Village Code and nothing more and his client objected to anything more being considered in the appeal. Mr. Seymour stated that the record included the information that was presented to the Planning Commission in September of 2022, which was the staff report, the justification statement of the applicant, the presentation, the plans, the applicant's presentation, staff's presentation, the answers to the questions made, public statements and the staff report and minutes from the 2021 Planning Commission meeting on the project. Mr. Seymour stated that he recognized that public comments were going to be allowed by the Council for the appeal, but that he noted his objection to consideration of such comments because they are not part of the record on appeal.

Mr. Seymour discussed and explained what was and was not considered evidence according to Florida law. Mr. Seymour stated that the project has been in review for two (2) years. The project was initially filed on December 2, 2020 and after a number of staff reviews, it went before the Planning Commission in December of 2021. The proposed project originally included five (5) stories, 206 residential units, 1578 square feet of space for commercial uses and four (4) live-work units. The minutes of the December 2021 Planning Commission meeting reflected that the Planning Commission reviewed the application, heard testimony from staff and the applicant, heard public comment and determined by a vote of five (5) to one (1), with one (1) member being absent, that the application including the waivers met all of the Village's requirements. Because the request included a height waiver, it was required to be approved by the Village Council. The request did not come before Council at that point because of the concerns raised by residents at the 2021 December hearing. Based on such concerns, the applicant revised the proposed project by reducing it by one (1) story to four (4) stories, reducing the number of residential units to 177 residential units and including 5802 square feet of commercial space. After the revisions, the Planning Commission reversed their decision and denied the project based on the one (1) waiver.

Mr. Seymour explained that all of the proposed uses for the project were permitted uses per the Village Code. Mr. Seymour stated that evidence demonstrated that the project met the Village Code and the Comprehensive Plan. Mr. Seymour discussed and reviewed the codes and requirements in the C-MU Zoning District and discussed how the Master Plan workshops in 2018 and 2019 resulted in concurrent amendments to the Comprehensive Plan and Village Code that were adopted and cross referenced.

Mr. Seymour stated that the Village Council adopted the definition of dwelling unit referenced in Ordinance 2022-10 which was later repealed. Mr. Seymour stated that the repeal was not in place when the application was submitted and therefore would not apply to the applicant. The application is required to be reviewed under the rules that applied when it was filed. Applying those regulations, staff found that the project was consistent with the density allowed within the Commercial Land Use Designation of the Comprehensive Plan. At the September 2022 Planning Commission, the applicant committed to converting the four (4) live-work units to commercial space which reduced the density from $32 \frac{1}{2}$ to 32. Mr. Seymour stated that Village staff was very clear that the applicant designed the proposed project consistent with the Citizen's Master Plan, Village Code and the Comprehensive Plan.

Mr. Seymour stated that four (4) waivers were requested by the applicant. Mr. Seymour discussed and explained the waivers and stated that the waivers met all of the requirements in 2021. The same waivers were presented at the September 2022 hearing with the differences of lower height, the incorporation of requests and conditions that were made by the Planning Commission and a reduction in density. Mr. Seymour explained and discussed the conclusions of staff regarding the waivers and what was required for waivers to be approved. Mr. Seymour stated that there was no discussion at the meetings regarding the sidewalk width. The Planning Commission relied on one (1) waiver to deny the project. Mr. Seymour discussed and explained the sidewalk waiver. Mr. Seymour stated that there was no evidence in the record that the sidewalk waiver was not consistent with the applicable code requirements and that there was no evidence in the record that supported the Planning Commission's denial. Mr. Seymour stated that based on the evidence, the appeal should be granted.

Mayor Searcy stated that she understood that public comment was not evidentiary and understood the objection but that Council believed that the residents were entitled to have their voices heard.

Mayor Searcy read thirteen (13) public comments that were submitted online through the Village website from the following residents who expressed their opposition to the proposed 200 Yacht Club Drive project:

Jerry Pruitt, 112 Yacht Club Drive Bill Hipple, 539 Captains Road Patricia Bowers, 21 Yacht Club Drive Stephen Harber, 731 Lakeside Drive David Havanich, 20 Yacht Club Drive John Pagano, 21 Yacht Club Drive Bill Stephens, 52 Yacht Club Drive Marlene Jannotta, 101 Doolen Ct. Susan Mills, 20 Yacht Club Drive Ryan Nagel, 136 Cruiser Road South Patrick Wagor, 625 Atlantic Road Harriet Havanich, 20 Yacht Club Drive Kris Pagano, 21 Yacht Club Drive Patricia Williamson, 849 Fathom Road

These residents addressed the Council with their concerns and expressed their opposition to the proposed 200 Yacht Club Drive project:

Peggy Girard, 52 Yacht Club Drive Carolyn Liss, 52 Yacht Club Drive Bob Starkie, 36 Yacht Club Drive Chris Ryder, 118 Dory Road South Diane Smith, 37 Yacht Club Drive Sandra Yeater, 36 Yacht Club Drive Bill Stephens, 52 Yacht Club Drive Cory Cross, 2560 Pepperwood Circle S William Rose, 36 Yacht Club Drive Frank Rendulic, 36 Yacht Club Drive Lucy Karas, 37 Yacht Club Drive Helen Rabiner, 44 Yacht Club Drive Cheryl Rose, 36 Yacht Club Drive Dave Collangelo, 45 Yacht Club Drive Deborah Cross, 2560 Pepperwood Circle S

Mr. Seymour addressed the traffic concerns explaining that the traffic was determined to be at Level of Service A at the intersection of U.S. Highway 1 and Yacht Club Drive. Mr. Seymour stated that the issue at hand was what the laws were and the fact that the developer followed the established laws. Mr. Seymour explained that the Village had every right to change the code going forward. Mr. Seymour concluded that the law had to be followed and the developer followed the law.

Councilmember Mullinix asked Mr. Rubin to explain what the Council was ruling on.

Mr. Rubin explained that the Council would be ruling on the entire site plan and appearance application in accordance with the Village Code.

Councilmember Mullinix explained that from the inception of the proposed project, he was clear to the developer that he was not a proponent of the project. Councilmember Mullinix explained and discussed his reasons for not approving the project.

President Pro Tem Bickel stated that she was not a proponent of the density that was initially proposed and did not see the public benefit that would come with the waivers and did not support the project as it stood.

Vice Mayor Norris stated that he could not support the project based on the same reasons that Councilmember Mullinix and President Pro Tem Bickel expressed and for the fact that there was not enough commercial space proposed.

Councilmember Aubrey stated that he did not support the appeal, but that he could support the proposed project with changes such as a density of thirty-six (36), more commercial space and an entrance and exit on the south end of the property. Councilmember Aubrey clarified the difference between low income and workforce housing and stated that the proposed project had workforce housing units included.

Mayor Searcy agreed with the concerns expressed by the rest of the Council regarding the project.

Mayor Searcy stated that she did not believe the proposed project complied with the Comprehensive Plan which calls for a vibrant commercial corridor and a mixed pattern of development. The issue was that it would be three parcels that would be turned into ninety-seven percent (97%) residential with less than 6000 square feet of commercial space which was not a mixed pattern of development. The Master Plan indicated that the northernmost parcel could be completely residential but not the other two parcels. Mayor Searcy stated that she did not support the project as it was currently proposed.

Ken Tuma of Urban Design Studios, introduced himself and stated that he, the property owner and the developer were looking for direction on what Council was looking for in the proposed project and would like to address and discuss some of the items that were mentioned.

Mr. Rubin stated that a revised project could be submitted regardless of the outcome of the appeal.

Mr. Tuma stated that he and the developer discussed what they would be willing to do to make the project happen. Mr. Tuma stated that they would be willing to drop the project down to 162 units, eliminate the parking garage and do surface parking along the back of the building. No townhomes would be at the back of the building.

Mr. Tuma explained that in order to eliminate the parking garage, they would need to go up one partial level to allow the ability to shrink the building for additional green space. Mr. Tuma stated that the developer was satisfied with having 1600 square feet of commercial space for the possibility of a coffee shop but was unsure if they would be willing to revise the amount of commercial space. Mr. Tuma asked Scott Stetner of Robbins NPB LLC to come up and address the proposed commercial space.

Mr. Stetner introduced himself and began to discuss and explain the challenging process that had been undertaken between staff, the Planning Commission and Council to bring the project to fruition. Mr. Stetner explained that they relied on the code to bring forward a proposal for the project that met the code and they were confident their legal position and would pursue legal measures if necessary. Mr. Stetner stated that if Council was willing to work with them, further legal action could be avoided.

Mayor Searcy asked if the developer was willing to provide more commercial space and if so, how much more.

Mr. Stetner explained that if the density was being decreased it was not economically feasible to provide more commercial space. Mr. Stetner continued to explain the reasons why more commercial space would not be feasible.

Mayor Searcy stated that she could not be in support of the proposed project if it did not have more commercial space.

President Pro Tem Susan Bickel expressed her displeasure with Mr. Stetner's threat to pursue further legal action and stated that she was not in support of the proposed density for the project and did not feel comfortable negotiating the details of the project before having time to prepare or think about the proposed changes they were offering.

Mr. Seymour recommended that Council stay the appeal in order for the developer and architects to have time to come back with changes and present a revised project proposal.

Mr. Rubin explained that it was up to Council to decide whether or not to stay the appeal if they were willing to consider a revised project proposal.

Councilmember Mullinix made a motion to deny the appeal of the Planning Commission's denial of the 200 Yacht Club Drive Project.

The motion made by Councilmember Mullinix to deny the appeal of the Planning Commission's denial of the 200 Yacht Club Drive Project failed due to lack of a second.

Discussion ensued between Councilmembers, staff and Mr. Rubin on whether or not to stay the appeal.

Mayor Searcy asked Mr. Mitchell Robbins, of Robbins NPB LLC, the owner of the property located at 200 Yacht Club Drive, if he would like to speak.

Mr. Robbins introduced himself and gave a history of why and how he acquired the property located at 200 Yacht Club Drive. Mr. Robbins explained that the proposed project was based on feedback he had received from Village staff and residents. Mr. Robbins concluded by stating that by staying the appeal it would give them the opportunity put a revised project together that would be right for that piece of property.

Mayor Searcy thanked Mr. Robbins for his dedication to the Village.

Vice Mayor Norris stated that he was willing to give the developers and architects the opportunity to present a revised project.

President Pro Tem Bickel asked if the appeal could be denied but keep the project open to negotiation.

Mr. Rubin recommended that if Council was still open to further negotiation, they should stay the appeal for a specified time period.

Mr. Tuma stated that a sixty (60) day period would work for the team to come back with revisions to the project.

Mayor Searcy addressed the audience and explained that if the appeal was stayed, it would give the developers the opportunity to bring back a revised project based upon all concerns expressed by Council and the residents.

Councilmember Mullinix explained his reasoning for wanting to deny the appeal. Mr. Mullinix expressed that he would like the developer to start over on the project.

Councilmember Aubrey asked what would be the best process for moving forward.

Mr. Rubin explained that if the appeal was denied, it would force the developer's hands to take the next steps in the legal process as there were deadlines for challenging the denial in the Circuit Court. Mr. Rubin explained that it was within the Council's discretion to deny or stay the appeal.

Discussion ensued between Council and Mr. Robbins regarding the potential outcomes of denying or staying the appeal. It was concluded that if the appeal was denied, the final outcome of the project could rest with a Circuit Court judge if the developer were to pursue further legal action.

A motion was made by Vice Mayor Norris and seconded by Councilmember Aubrey to stay the appeal of the Planning Commission's denial of the 200 Yacht Club Drive Project until the second Council meeting in January, which would fall on January 26, 2023.

The motion passed 4 to1 with Mayor Searcy, Vice Mayor Norris, President Pro Tem Bickel and Councilmember Aubrey voting aye and Councilmember Mullinix voting nay.

Mr. Huff expressed his thoughts on the stay of the appeal and stated that it gave an opportunity to meet with residents and have them engaged with the developers to give their input on the project.

Mr. Huff stated that he was willing to facilitate those meetings.

Mayor Searcy recessed the meeting at 9:18 p.m.

Mayor Searcy reconvened the meeting at 9:26 p.m.

VILLAGE OF NORTH PALM BEACH VILLAGE ATTORNEY'S OFFICE

- TO: Honorable Mayor and Council
- THRU: Chuck Huff, Interim Village Manager
- FROM: Leonard G. Rubin, Village Attorney
- DATE: December 8, 2022
- SUBJECT: **ORDINANCE 1st Reading** Amending the Police and Fire Pension Plan to authorize the Board to adopt an Administrative Policy for Tax Qualification and Increasing the Minimum Distribution Age

The Police and Fire Pension Board is requesting Village Council consideration and approval of the attached Ordinance revising Division 4, "Pension and Certain Other Benefits for Fire and Police Employees," of Article V, "Pensions and Retirement Systems," of Chapter 2, "Administration," of the Village Code of Ordinances to ensure continued compliance with all applicable Internal Revenue Code requirements. Specifically, the proposed Ordinance provides for the following revisions:

- An amendment to Section 2-159 (Creation of Plan and Trust) of the Village Code to specifically reference the applicable Treasury Regulations and require the Board of Trustees for the Pension Plan to adopt an administrative policy setting for the required provisions for tax qualification. This will allow the Board, in consultation with its legal counsel, to make appropriate changes to the Plan to maintain its tax qualified status due to changes to the Internal Revenue Code.
- An amendment to Section 2-161 (Benefit Amounts) and Section 2-170.1 (Deferred Option Benefit Plan – DROP) to increase the required minimum distribution age from 70¹/₂ to 72 to comply with changes to the Internal Revenue Code.

As set forth in the letter from Foster and Foster, the Plan Actuary (copy attached), the proposed changes will have no impact on the assumptions used in determining the funding requirements of the Plan.

Recommendation:

Village Staff requests Council consideration and approval on first reading of the attached Ordinance amending the Police and Fire Pension Plan to authorize the Board to adopt an administrative policy to maintain its tax qualified status and increase the required minimum distribution age as required by the Internal Revenue Code.

VIA EMAIL

Board of Trustees Village of North Palm Beach Firefighters' and Police Officers' Pension Board

Re: Village of North Palm Beach Fire and Police Retirement Fund

Dear Board:

As requested by Bonni Jensen via September 23, 2022 email, we have reviewed the proposed Ordinance, amending the following Sections:

Sec. 2-159 – Reference to applicable Treasury Regulations added. Additionally adopting an administrative policy for maintaining compliance with the Internal Revenue Code.

Sec. 2-161 and 2-170.1 – An increase in the age for required minimum distribution of benefits from 70 $\frac{1}{2}$ to 72.

We have determined that the adoption of the proposed changes will have no impact on the assumptions used in determining the funding requirements of the program.

Because the above proposals do not result in an immediate change in the valuation results, it is our opinion that a formal Actuarial Impact Statement is not required in support of its adoption. However, since the Division of Retirement must be aware of the current provisions of all public pension programs, it is recommended that you send a copy of this letter and a copy of the fully executed Ordinance to each of the following offices:

Mr. Keith Brinkman Bureau of Local Retirement Systems Division of Retirement 3189 S. Blair Stone Rd. Tallahassee, FL 32301

Mr. Steve Bardin Municipal Police and Fire Pension Trust Funds Division of Retirement 3189 S. Blair Stone Rd. Tallahassee, FL 32301

If you have any questions, please let me know.

Sincerely,

Douglas H. Lozen, EA, MAAA

VILLAGE OF NORTH PALM BEACH COMMUNITY DEVELOPMENT DEPARTMENT

TO:	Honorable Mayor and Council
THRU:	Charles Huff, Interim Village Manager
FROM:	Alex Ahrenholz, Acting Director of Community Development
DATE:	December 8, 2022
SUBJECT:	ORDINANCE – Village initiated Amendment to the Village's Comprehensive Plan to adopt a Property Rights Element

Analysis:

During the 2021 session, the Florida Legislature adopted Senate Bill 59, amending Section 163.3177(6)(i)(1), Florida Statutes, to require each municipality to include a new Property Rights Elements in its Comprehensive Development Plan. Pursuant to state statute, the Property Rights Element must be adopted "by the earlier of the date of its adoption of its next proposed plan amendment that is initiated after July 1, 2021, or the date of the next scheduled evaluation and appraisal of its comprehensive plan."

With the anticipated revisions to the Comprehensive Plan impacting the former Twin City Mall site, the Village is required to adopt a Property Rights Element at this time. The legislation provided a model statement of rights a local government may adopt. The purpose of this new element is to ensure that the Village considers and respects judicially acknowledged and constitutional private property rights when making planning and development decisions. Specifically, the Property Rights Element provides that the Village will consider the following rights in its decision making:

- The right of a property owner to physically possess and control his or her interests in the property, including easements, leases, or mineral rights.
- The right of a property owner to use, maintain, develop, and improve his or her property for personal use or for the use of any other person, subject to state law and local ordinances.
- The right of a property owner to privacy and to exclude others from the property to protect the owner's possessions and property.
- The right of a property owner to dispose of his or her property through sale or gift.

Village Staff is proposing adoption of the statutory model. The Planning Commission, in its role as the Village's Local Planning Agency, reviewed the proposed Property Rights Element at a public hearing held on November 1, 2022 and unanimously recommended approval. Upon adoption on first reading, Village Staff will transmit the proposed Comprehensive Plan Amendment to the Florida Department of Economic Opportunity for review and comment.

There is no fiscal impact

Recommendation:

Village Staff recommends Council consideration and approval on first reading of the attached Ordinance amending the Village's Comprehensive Plan to include a Property Rights Element as required by state law.

I. CALL TO ORDER

Chairman Cross called the meeting to order at 6:30 PM.

A. ROLL CALL

All members of the Planning Commission were present except Ms. DeWitt. Mr. Hicks arrived at 6:34 PM.

II. APPROVAL OF MINUTES

The Minutes of the February 1, 2022 and March 1, 2022 Regular Meetings were approved as written.

III. DECLARATION OF EX PARTE COMMUNICATIONS

There were no Ex Parte Communications declared by the Board.

IV. QUASI JUDICIAL MATTERS / PUBLIC HEARING

Attorney Aleksandr Boksner swears in all persons speaking.

A. SITE PLAN AND APPEARANCE REVIEW

1. 202-208 US Highway 1 - Paint Colors

Application by Cromwell Properties for amendment to the building paint colors

Mr. Ahrenholz presented the staff report and recommendations. The building is located just south of Northlake Blvd. on US 1. The building used to be yellow and red, and when the tenant moved out, the owners repainted the building without a permit. They realized after the fact that they need COA approval. The new paint is a Benjamin Moore custom light blue and the metal roof was painted with Sherwin Williams aluminum.

Staff recommends approval with no conditions.

The Chairman asked for comments from the public. Seeing there were no comments, the Chairman closed the public comments.

The Planning Commissions members discussed whether the cabinet signs will be changed, and whether the property owner has been advised of the proper procedure for repainting the building.

Motion: Mr. Haigh moved to approve the application as submitted. Mr. Solodar seconded the motion, which passed 6-0.

2. 517 Northlake Blvd - Awnings

Application by Hoover Canvas products, on behalf of HNK, LLC for the installation of building awnings along the East entrances

Mr. Ahrenholz presented the staff report and recommendations. The subject property was approved for building signage at the January 11, 2022 Planning Commission meeting. The property owner has since opened the business and realized an awning would better frame the entrances on the east side of the building. The black canvas awnings will extend out three (3) feet seven (7) inches from the façade, completely covering the walkway and extending into the roadway one (1) foot, six (6) inches. The awning will be just shy of ten (10) feet above the ground, so conflicts with vehicles will be avoided. The south side of the building extends to the east by five (5) feet, so the awning will not extend more that the building does in this section of the parking lot.

Staff recommends approval with no conditions.

Michael Hess, Hoover Canvas Products, West Palm Beach, was present to represent the project.

The Planning Commissions members had no discussion.

Motion: Dr. Kennedy moved to approve the application as submitted. Mr. Hicks seconded the motion, which passed 6-0.

3. Frigates - Outdoor Seating

Application submitted by Frigates Holdings, LLC, requesting expansion of outdoor seating

Mr. Ahrenholz presented the staff report and recommendations. Frigates is an existing waterfront restaurant located along the C-17 canal (also known as the Earman River). At the April 2020 Planning Commission meeting, it was approved for a new dock, solely for use as an observation platform with no seating included. During the pandemic, the observation platform was used as temporary outdoor seating, permitted by the Village for all restaurants as a response to Covid-19, but this permission has since expired. In 2021, the restaurant was approved for a total of twenty (20) additional spaces. The restaurant was initially approved for 180 seats by the Planning Commission in 2010. With the addition of 20 new parking spaces, by code 60 additional seats can be approved (required parking - 1 per 3 seats). The proposed site plan has 240 seats total with the same number of employees utilized. The new seats are being added to the previously approved observation deck and to the existing outdoor seating area. The proposed site plan does not increase the size of the building or the previously built platform.

The only permit necessary is for the re-striping of the parking lot to create the golf cart spaces. The recommended conditions are mainly to clean up licensures required.

Staff recommends approval with the following conditions:

1. An updated business tax receipt shall be submitted to the Village of North Palm Beach within 30 days of this approval.

2. Property owner shall obtain an updated license with Palm Beach County for the 4COP SRX alcohol sales license.

3. Building permit shall be submitted to the Village of North Palm Beach within 45 days of approval for the restriping of the parking lot to include the golf cart spaces.

4. Property owner shall receive approval from Seacoast Water Utility Authority for compliance with existing system connections prior to Certificate of Occupancy of the re-striping permit.

5. Signage shall be installed on the boat docks advertising and delineating the spaces to moor for public use. They are limited to two (2) SF and must be placed on existing dock pilings.

Steve Muller, Owner, 130 Bowsprit Dr., North Palm Beach, was present to represent the project.

The Planning Commissions members discussed how the deck seating came about; did seating from inside the restaurant get moved outside; whether the golf cart parking will be designated as such; and whether parking is currently adequate with the additional seats.

The Chairman asked for comments from the public.

Deborah Cross, 2560 Pepperwood Circle, North Palm Beach, expressed concern over the amount of parking and impact of impervious surface runoff into the waterway.

Seeing there were no further comments, the Chairman closed the public comments.

Motion: Mr. Solodar moved to approve the application as submitted with Staff's recommendations. Dr. Kennedy seconded the motion, which passed 6-0.

4. North Palm Beach Marina

Application by Urban Design Studios on behalf of Safe Harbor Marinas for the addition of 26 boat slips, renovation of parking lot, and relocation of food truck

Mr. Haigh recused himself from this item.

Lentzy Jean-Louis, Urban Design Studio, 610 Clematis St., Suite CU02, West Palm Beach, presented the project, a Site Plan and Appearance Review Application for proposed improvements to the Marina to include:

- Replacement and renovation of interior seawall.
- Increase number of boat slips provided from 103 to 129.
- Improvements to access, drainage, sidewalks along interior seawall.

The subject property is located at 1037 Marina Dr., at the northeast corner of Yacht Club Drive and Marina Drive within the jurisdiction of the Village of North Palm Beach. The subject property is 11.8 acres. The site contains

a marina with 103 wet slips for boat parking, a bathroom building for users on site, and a 1410 SF Ship's Store near the northern portion of the site for marina members and boat owners. The site was most recently approved for a Certificate of Appropriateness (COA) at the October 6th, 2020 Planning Commission meeting to add a restroom trailer near the Ship's Store building. The Site Plan approved on October 6th, 2020 was an amendment to the Site Plan approved at the August 8th, 2020 Village Planning Commission, which approved a food truck and outdoor seating amenities. As of today, the food stand structure and outdoor seating has been permitted and should be completed within the next month. Work on the northern seawall has also been recently completed, with plans to replace and renovate the interior seawall in the upcoming summers of 2022 and 2023.

The proposed improvements include replacement and renovation of the interior seawall, an increase of the number of boat slips provided from 103 to 129, and improvements to access, drainage, and sidewalks along the interior seawall. The conditions of the interior seawall on the western border of the marina have been deteriorating over time, and to address the deteriorating conditions, Safe Harbor Marina is proposing improvements and upgrades to the inner marina by constructing a new seawall and seawall cap and raising the grade by roughly a foot from what was existing. The new proposed seawall will be located roughly ± 5 ' inside of the existing seawall location. The increased elevation and location will also impact the existing parking and sidewalk adjacent to the interior seawall in order to accommodate drainage. The grade of the new concrete sidewalk will increase to be flush with the new seawall cap level, and the grade of the existing parking will increase to the point where the west edge of the sidewalk acts as a curb varying in height from 0" to 6". The new grade of the sidewalk being flush with the seawall cap creates a wider pedestrian path for those traveling along the interior seawall of the marina.

Safe Harbor has also decided to add new boat slips and slightly modify dock locations concurrently with the work planned on the seawall. An increase of 26 boat slips is planned from the existing layout. Safe Harbor is considering doing all improvements at the same time, or proposing the work be done in a phased manner in the summer off seasons of 2022 and 2023.

Mr. Ahrenholz presented the staff report and recommendations. He explained that with the addition of the extra boat slips, the configuration of the marina will change.

Staff recommends approval with no conditions.

The Chairman asked for comments from the public.

Deborah Cross, 2560 Pepperwood Circle, North Palm Beach, expressed concern over the use of Round-Up to control weeds and potential for runoff into the waterway.

Chris Ryder, 118 Dory Rd., North Palm Beach, expressed concern whether residents will be able to park on the public roadway and concern regarding the flood zone designation.

John Bargess, 1036 US 1, North Palm Beach, Complained that Safe Harbor did not provide information to the residents of Marina Bay when they started the first project, have added trees which now block their view of the inter-coastal and the lights are left on occasionally all night.

Seeing there were no further comments, the Chairman closed the public comments.

Michael Spruce, Kimley Horn, West Palm Beach, addressed the drainage issue.

Josh Dye, 1037 Marina Dr. North Palm Beach, addressed the Marina issues.

The Planning Commissions members discussed how was the additional height on the seawall cap determined; how did the seawall fail; are there future plans to dredge the marina; will parking spaces need to increase with the addition of the boat slips; whether the boat slips are floating or fixed; whether the vibration issue with regards to the pile driving of the steel sheets been addressed; what is the rationale of repositioning the food truck; whether a waiver was required for the seawall to use steel plates rather than concrete; who will maintain the storm sewer connection between the marina and the Village;

Motion: Dr. Kennedy moved to approve the application as submitted. Mr. Hicks seconded the motion, which passed 5-0, with Mr. Haigh recusing himself from the vote.

B. RECOMMENDATIONS TO VILLAGE COUNCIL

1. Dwelling Unit Definition Amendment

Village initiated zoning text amendment to Section 45-2 of the Village Code of Ordinances, amending the definition of dwelling unit.

Mr. Hubsch discussed the Village Council's request to remove the definition of Dwelling Unit from the Code, due to resident opposition regarding the 200 Yacht Club Dr. project's density. He gave background and timeline information of how the term was put into the Code rewrite. The process of revising the Village's land development regulations and comprehensive plan officially started in January 2018. He explained the consulting team held its first public workshop in April 2018, followed by seven additional workshops, held between December 2018 and May 2019. The consulting team and Village staff incorporated feedback from the workshops into draft land development regulations and comprehensive plan amendments. A preliminary version of the draft regulations and comprehensive plan amendments was workshopped with the Planning Commission in January 2020 for feedback. One of the numerous code changes that was included in the draft code was counting a one-bedroom unit as .5 of a dwelling unit in mixed-use commercial zoning districts for density purposes. The .5 dwelling unit provision was then adopted with the remainder of the Village code updates in the fall of 2020.

Mr. Hubsch further explained that many municipalities around the country grant density reductions or bonuses for the provision of smaller dwelling units in multi-family developments because they tend to have fewer residents than larger units. When drafting the code, Village staff and its consulting team thought that creating the .5 dwelling unit provision was a best practice and an equitable way to treat density in the Village's mixed-use districts. The 200 Yacht Club Drive project utilized the .5 dwelling unit provision to provide a greater number of one-bedroom units than would have been allowed without the provision. Some residents along Yacht Club Drive have complained that the project has too many units and have requested that the Village Council repeal the code provision. In response to the feedback, the Village Council has directed staff to draft an Ordinance repealing the .5 dwelling unit provision.

The Chairman asked for comments from the public.

Nikki Colangelo, 45 Yacht Club Dr. #210, spoke in favor of removing the Dwelling Unit provision from the Master Plan.

Chris Ryder, 118 Dory Rd., spoke in favor of removing the Dwelling Unit provision from the Master Plan.

Ray Kelly, 37 Yacht Club Dr. #206, spoke on density and crime statistics.

Seeing there were no further comments, the Chairman closed the public comments.

The Planning Commissions members discussed the request and whether any other developments have come in that utilize this density; what impact will the repeal have on the Yacht Club Drive project; whether the repeal will have impact on required parking; whether there is a better solution than repealing the Code; and the Planning Commission's desire for further information and discussion on Council's intent.

Motion: Mr. Solodar moved to recommend the Code Amendment to Village Council. Mr. Hogarth seconded the motion, which passed 3-3, with Mr. Haigh, Mr. Hicks and Dr. Kennedy voting nay.

2. Single Family Home Regulations

Village initiated zoning text amendment, as recommended by the residential ad-hoc committee, amending Chapters 21 and 45 regulating single family home development.

Mr. Hubsch introduced the Chairman of the Ad Hoc Committee, Dr. Bill Whiteford, who explained the process of reaching the recommendations of the Committee. The Ad Hoc Committee held several public meetings to study various issues and evaluate permanent code recommendations for the R-1 Zoning District. Staff and the Ad Hoc Committee have agreed that there are code changes to evaluate in the ZIP and that more time is needed to evaluate permanent changes to the second-story massing issue. Staff and the Ad Hoc Committee are recommending to adopt code changes related to minimum landscaped area, building height, and stormwater management and to extend the ZIP an additional six months to further evaluate the second-story massing issue. While the second-story massing issue is evaluated, additional code changes will be considered based on feedback that was been brought up by residents, Committee members, and staff at the Ad Hoc Committee meetings.

Mr. Hubsch presented the staff report and recommendation. Staff shared preliminary observations about housing trends in the Village with the Council in May 2021, and discussed possible methods to address Council's policy direction. Specifically, staff recommended establishing a "Zoning in Progress" ("ZIP") for the R-1 Zoning District that would continue to allow redevelopment of residential properties within certain parameters until amendments to the Code could be adopted. Staff also recommended the creation of an Ad-Hoc Committee of residents to evaluate permanent code changes during the ZIP. The ZIP was approved by Council for a period of six months, with potential for a further six-month extension. The ZIP allowed development to continue within the R-1 District, with three restrictions:

- All new one-story homes are to have a thirty-five percent (35%) minimum landscaped area, all new twostory homes were to have a forty (40%) minimum landscaped area, and are to provide a landscaped area of fifty (50%) in the required front setback. Homes on collector roads (i.e., Lighthouse Drive and Prosperity Farms Road) have to provide a forty (40%) minimum landscaped area within the front setback and properties with irregular shaped lots (cul-de-sacs) have to provide a twenty-five (25%) minimum landscaped area within the front setback.
- All homes are limited to thirty feet (30') in height for flat roofs and thirty-five (35') for all other roof types, including gable, hip, gambrel, and shed roofs.
- The floor area of the second story of a single-family home is limited to seventy-five percent (75%) of the floor area of the first story.

Members of the Planning discussed the proposed revisions to the Village Code, with a minor revision to the drainage code, and thought the draft changes were reasonable and agreed that there are many other code changes to evaluate while the second-story massing issue is further evaluated.

The Chairman asked for comments from the public.

Rita Budnyk, 8047 Shore Dr., spoke in favor of the recommendations of the Ad-Hoc Committee.

Seeing there were no further comments, the Chairman closed the public comments.

Motion: Mr. Solodar moved to recommend to the Village Council the recommendations of the Ad-Hoc Committee with the condition, under Sec. 45-2 Definitions – Landscaped Area, to remove the wording *or grass* from paved parking lot. Dr. Kennedy seconded the motion, which passed 6-0.

The new tenant, whose business's full legal name "BioReset South Florida, PA," is requesting approval for a wall sign of individual letters attached on a custom raceway painted to match (Sign Band-Light Beige). The new wall sign will display the business name "BioReset" which will be centrally located just below the roofline of the front facade. The sign will be composed of 36 in. Royal Blue channel letters consisting of white Plexi with perforated vinyl to reflect white light at night.

Staff recommends approval with no conditions.

Mr. Ahrenholz presented the staff report and recommendations. The subject property is an office complex consisting of three separate two-story buildings. The existing monument sign is located at the SE corner of the parcel and is currently utilized as an "Offices For Lease" sign. The tenant, whose business's full legal name "The Good Life Treatment Center" is requesting approval for a sign face change-out on the existing monument sign with new navy blue vinyl lettering comprising the business name and graphic symbol on a white background for the north and south faces of the sign.

Motion: Ms. DeWitt moved to approve the application as submitted with Staff's recommendations. Dr. Kennedy seconded the motion, which passed 5-0.

4. North Palm Car Wash Signage

Application by Izquierdos, LLC for installation of a new sign at the existing carwash.

Mr. Ahrenholz presented the staff report and recommendations. The carwash building was approved with the rest of the structure in 1997 as an automatic carwash associated with the Citgo gas station. The ownership and name changed to Rocket Fuel in 2017. The automatic components of the carwash were removed at some point during this transition and the building has remained.

The proposal by the property owner is to provide a hand car wash service within the vacant building under the name "North Palm Car Wash". The car wash, as a use accessory to the gas station, does not change the previously approved site plan when it shifts from automatic to hand wash. As such, a Business Tax Receipt (BTR) has been

approved for its operation. The owner painted "car wash" as signage on the building but this is listed under the prohibited signs in Section 6-113. After code enforcement action, the owner has submitted a design for a permanent sign and the painting has been removed.

Staff recommends approval with no conditions.

There were no questions from the public.

The Planning Commissions members discussed whether the hand wash operation, will there be other components associated with hand washing, such as awnings, be added.

Motion: Ms. DeWitt moved to approve the application with the condition that any additional structures be brought back for site plan approval. Mr. Haigh seconded the motion, which passed 5-0.

5. 600 US Highway 1 Site Improvements

Application by Wayne Richards on behalf of JS 600 US One, LLC for amendment to the building façade, signage, landscaping, and site plan with one waiver.

Mr. Ahrenholz presented the staff report and recommendations. An application has been submitted to keep the existing use, with minor site improvements including façade updates, new signage, closing in the drive through and creating a rooftop amenity deck. The overall site configuration, parking spaces, and office square footage is not being amended. The proposed site plan encloses the drive through to provide two enclosed parking spaces for the owner in a garage bay. There are two driveways accessing the building for some show display vehicles to be placed in the center of the office spaces. Overall, parking will not be affected as the square footage of the use and total number of spaces is unchanged. The signage is proposed to be similar to what BBT utilized. A main, 122 square foot, sign is proposed along US Highway 1, which is seven (7) percent of the façade area. A twentynine (29) square foot sign is proposed along Ebbtide Drive, which is less than 50% of the main sign. Both signs are requested to be in the same location as the BBT signs, but those signs were not meeting the code requirement of maximum height.

Staff recommends the following conditions:

- 1. No amplified music shall be permitted on the rooftop terrace.
- 2. Additional shade tree or cluster of accent trees shall be provided at the eastern end of the three parking spaces along the southern façade of the building to meet the required planting for a terminal island.
- 3. Smaller shade trees or shorter palms shall replace the two royals at the western façade currently blocking the building signage.

The Chairman asked for questions from the public.

Deborah Cross, 2560 Pepperwood Circle South, North Palm Beach, asked expressed concern about the proposed roof top terrace, the metal proposed around the tower element, and whether the business can meet the parking requirements should the ancillary property behind the building to the north be sold.

Chris Ryder, 118 Dory Rd. South, North Palm Beach, asked what the purpose of the roof top terrace is under CMA District designations.

Seeing there were no further questions, the Chairman closed the public comments.

Wayne Richards, 721 US 1, Suite 214, North Palm Beach, was present to represent the project. He addressed the concerns of the public comments.

Brent Wood, Architect, 20 S.E. Ocean Blvd., Stuart, was present to represent the project.

The Planning Commissions members discussed whether a unity of title should be required for the two properties; whether the pre-existing lighting on the property will be replaced; whether the Royal Palms across the front of the property will be replaced; whether the applicant supports the conditions that staff has recommended; what was the roof top garden envisioned to be used for; what the height of the roof edges are; whether guard rails should be installed; whether lighting is proposed for the roof top; whether plantings should be required around the enclosed drive-thru area; and whether the fire department can maneuver around the building.

The Planning Commission recommends that the applicant address the following issues: Unity of title, lighting issues addressed, guardrail on the second floor, landscaping added to back area as applicable, recommendation the curve on the south have driveway access, handicapped parking, monument sign issues addressed, details on screen, and guardrails added on roof top.

Motion: Mr. Solodar moved to table the application to a future meeting. Dr. Kennedy seconded the motion, which passed 5-0.

6. Pelican Carwash

Application by PGA Wash LLC for site improvements to the existing carwash.

Mr. Ahrenholz presented the staff report and recommendations. Pelican Carwash has operated at this location since 1977. Little has changed with the site plan layout since the original approvals to include fuel service and additional retail to the site. The property has changed hands a few times over the decades until the most recent purchase in 2021 by the current property owner. Numerous projects were completed on site without a permit including, but not limited to, replacing the awnings, repainting the building, replacing the signage, replacing the pay stations and removing a fuel pump. There was also an unfortunate incident of a driver crashing into the fuel canopy, resulting in its demolition for safety. After code enforcement action was taken against the property owner, the Village Special Magistrate set a strict schedule to receive planning commission approval in June 2022 and building permits in July 2022 before being issued daily fines. The property owner has complied with the special magistrate requirements thus far and is on schedule. The numerous changes to the site plan, awnings, fuel pumps, pay stations, signage, paint colors, the green wall and proposed vacuums are detailed in the staff report for consideration by the planning commission.

Staff proposes the following conditions for aapproval:

- 1. The largest orange awning shall be replaced with smaller awning of similar size as before to not increase the nonconformity.
- 2. The blue awning in the front the building shall be removed.
- 3. A hedge shall be installed behind the vacuums at a minimum of three (3) feet high to screen from the right-of-way.
- 4. Paint colors shall be changed to something cohesive with the rest of the site.

The Chairman asked for questions from the public.

Deborah Cross, 2560 Pepperwood Circle South, North Palm Beach, asked expressed concern about the colors needing to be more cohesive, drainage from the carwash affecting the waterways and the environment, and whether the canopies are hurricane safe.

Seeing there were no further questions, the Chairman closed the public comments.

Laura Serrano, General Manager, Pelican Carwash, 11370 US 1, North Palm Beach was present to represent the project. She addressed the concerns expressed and answered the Planning Commission questions.

The Planning Commissions members discussed whether the orange canopy on the north side has been changed – larger than the previous one; what the signage colors will be once changes are made; whether the awnings will be replaced with blue; how will landscape plantings be addressed; whether there will continue to be the option for full service and paying the inside cashier; what the pole scanners are for; whether there is additional signage being added to the poles; whether the parking spaces displaced by the vacuums be relocated elsewhere; whether the fire department has reviewed the site; whether striping or curbing should be added to the lanes; whether a stop work order was issued by the Special Magistrate; whether the vacuums will be self-service; how is the building department going to inspect work that has already been done; and recommends that the application be table to allow the applicant to address the following issues: Canopies to be blue in color, arched canopy pole over pay stations to be blue, submit a striping plan, vacuum landscape, and directional signage.

Motion: Mr. Solodar moved to table the application to a future meeting. Ms. DeWitt seconded the motion, which passed 5-0.

II. DECLARATION OF EX PARTE COMMUNICATIONS

There were no Ex Parte Communications declared by the Board.

III. QUASI JUDICIAL MATTERS / PUBLIC HEARING

A. SITE PLAN AND APPEARANCE REVIEW

1. 202 US Highway 1

Application by Signarama NPB for the creation of a master sign program. Tabled July 5, 2022

Motion: Mr. Solodar moved to remove the application from the table. Mr. Hicks seconded the motion, which passed 6-0.

This application was presented at the July 5th Planning Commission meeting for approval of a master sign program. The commission had a few issues with the request and ultimately decided to table the item. Those issues included:

1. The ground sign, as currently constructed, does not meet the landscaping requirements of the code.

- 2. The building signs were not specified to be any uniform look in font or color
- 3. The building signs are roof mounted and staff needs to confirm if prohibited
- 4. No detailed rendering or specification was provided with the sign plan.

The applicant has since updated the master sign program to include a proposed color scheme of blues and whites on a white background. The specifications of the signs have remained, but a detailed picture has been included for future reference with the sign program. Fonts were not included in the sign program because the applicant believes there should remain some flexibility in design as long as the colors are consistent.

The signs are roof mounted, which is a prohibited sign per section 6-113, but are further defined in Section 6-111 to be "a sign placed above the roof line of a building or on or against a roof slope of less than forty-five (45) degrees". As the slope of the roof is greater than 45 degrees, the signs shall be permitted in their current location.

The ground sign is placed in front of a parking space that has been confirmed to be sixteen (16) feet in length, with approximately two (2) feet of space between the wheel stop and the base of the sign. This space is required for the vehicle overhang and cannot be reduced to provide landscaping. The back of the parking space is in line with the rest of the row and cannot be shifted further in to the drive aisle without affecting access for the entire site. The rear of the sign is located on the property line, which is permitted since there is no side setback for commercial properties. A shrub could be added on the east and west sides of the sign, but this thin strip of landscaping does not have irrigation, so the survivability of the shrubs is unlikely.

Staff recommends one (1) condition of approval:

1. Ground sign dimension shall be updated to show the entire sign area.

The Planning Commissions members discussed the project application. Discussion included narrowing the color selection to just a few choices; and whether the background color will remain white.

Henry Cromwell, owner of 202 US 1, was present to represent the project.

The Chairman asked for questions from the public.

Deborah Cross, 2560 Pepperwood Circle South, North Palm Beach, expressed concern that the colors need to be specific so as not to get colors that clash or do not complement each other.

Lisa Mardar, Signarama, 802 Old Dixie Hwy., Suite 3, Lake Park, suggested that two colors with specific pantone numbers be chosen which are acceptable to the landlord and can be chosen by the tenant.

Seeing there were no further questions, the Chairman closed the public comments.

Motion: Dr. Kennedy moved to approve the application with Staff's condition and that specific pantone colors be chosen. Mr. Solodar seconded the motion, which passed 6-0.

2. 120 US Highway 1 site improvements

Application by Pure Nene, LLC for site and façade improvements to the existing retail building. Tabled July 5, 2022

Motion: Mr. Solodar moved to remove the application from the table. Dr. Kennedy seconded the motion, which passed 6-0.

Mr. Ahrenholz presented the staff report and recommendations. This application was presented at the July 5th Planning Commission meeting for approval of the site and facade changes to the existing facility. The commission had a few issues with the proposal and moved to table the application for the following items to be resolved:

- 1. The handicap spaces need to be amended to allow for proper access to the front door
- 2. Parking in the rear is too close to the ramp
- 3. Drive aisles are not meeting code minimum widths
- 4. Parking lot landscape islands are not provided at the western end of the parking spaces
- 5. Parking lot lighting not provided

Mr. Ahrenholz updated the Commission on the applicant's changes to the foundation planting area, reduction of the handicapped spaces with a single space including a five foot walkway at the front door, landscape islands will be at the western end of the parking spaces and will be a minimum 15 feet long and eight feet wide. Ground cover shrubs within the islands will be required as a condition of approval. The applicant has made no changes to the building façade, but has indicated that there will be lights aimed at the building at night. The Public Works Department has requested that dumpster enclosure in the rear remain as is, as it conforms to the other businesses along the alley. Another condition of approval is a ramp to the rear door for deliveries. The building is only six inches higher that the parking lot so the sides of the ramp can be sloped for a car to mount if necessary.

Staff proposes two conditions of approval:

- 1. Shrubs with mulch or a groundcover shall be provided at the base of the trees proposed on the western edge of the parking lot.
- 2. The ramp at the rear of the building shall be angled on the north and south sides to be mountable if necessary.

The Planning Commissions members discussed whether the addition of landscaping could be added to the rear of the building; whether the handicapped access aisle needs to be striped; whether any signage will be added to direct which is the entrance/exit; whether lighting will be addressed in the code; and whether the gravel can be replaced with ground cover.

Veridiana Lucchesi, Applicant, 9602 LaBelle Ct., Delray Beach, was present to represent the project.

The Chairman asked for questions from the public.

Deborah Cross, 2560 Pepperwood Circle South, North Palm Beach, expressed concerns for more green space and less paving.

Seeing there were no further questions, the Chairman closed the public comments.

Motion: Mr. Haigh moved to approve the application with Staffs two conditions of approval and that the handicapped parking spaces be striped per Florida Building Code. Mr. Solodar seconded the motion, which passed 6-0.

V. ADMINISTRATION MATTERS

- A. Staff Updates:
 - Discussion on whether the Planning Commission should impose time limits for completing approved projects, or making an expiration date for new projects to be completed. Consensus of the discussion is that expiration dates should be put into an ordinance.
 - 200 Yacht Club Dr. project has resubmitted their application. Will come before the Planning Commission in September. Staff is requiring them to post notices. The Planning Commission requested receiving the proposed changes in advance of the meeting.
- B. Commission Member Comments:
 - Discussion on the level of site requirement differences between the two applications presented. One was signage and paint colors and the other was a total façade makeover, landscape and addition of a ramp in the rear of the building, but they were both held to the same standards.
 - Discussion of the Joint meeting with Lake Park and when the next meeting date is planned.

VI. ADJOURNMENT

With there being no further business to come before the Board, the meeting adjourned at 7:33 PM.

A. APPROVAL OF THE MINUTES

The Minutes of the June 7, 2022 and July 5, 2022 Regular Meetings were approved as written.

B. SITE PLAN AND APPEARANCE REVIEW

1. 824 US Highway 1

Application by Lissette Rivera for amendment to building paint colors

Mr. Ahrenholz presented the staff report and recommendations. Work on this office building has been completed without a permit. The walls were previously white with a pale yellow color painted on the banding that runs around the perimeter of the building immediately above the ground floor/garage and at the roofline of the top floor. The new building color is Sherwin-Williams Extra White (SW 7006) with banding painted in Benjamin Moore Marina Gray (BM 1599). Staff recommends approval with no conditions.

Discussion by the Planning Commissions members included how a building this size could be painted without enforcement from the Village.

Mr. Arhenholz explained that Code Officers did advise the property management that a permit and approval was needed for their painting project and to stop working.

Motion: Ms. DeWitt moved to approve the application as submitted. Dr. Kennedy seconded the motion, which passed 7-0.

2. Super 8 Motel

Application by S.B. Patel for the addition of a freestanding metal awning

Mr. Ahrenholz presented the staff report and recommendations. There is an existing freestanding metal roof over the walkway immediately south of an entry to the motel lobby. It was installed a few years ago to protect customers from weather conditions. The Motel is proposing to duplicate an aluminum metal roof, like for like in material, color and dimensions, located over the walkway immediately north of motel lobby adjacent to an entry door, also to protect customers from weather conditions.

Staff proposes one condition of approval:

1. The awning shall match the existing awning in color and material

The Planning Commissions members discussed how far out from the building does the awning go; whether the awning runs from the lobby to the guest rooms; whether the existing awning was subject to the approval process originally; whether the proposed awning will match the existing awning; whether the applicant is agreeable with the condition of approval; whether the set back off of Anchorage Dr. is in compliance; and whether the awning will be flush with the wall.

Motion: Mr. Hogarth moved to approve the application with Staff's condition of approval. Mr. Hicks seconded the motion, which passed 7-0.

3. **200 Yacht Club Drive** Application by Robbins NPB LLC, for a 181 unit multifamily development with 1,578 square feet of commercial space

Mr. Rubin explained the Quasi Judicial Order of Procedure and time limits for presentation of the application.

Ken Tuma, Urban Design Studio, 610 Clematis St. Unit CU-2, West Palm Beach, represented the applicant. He introduced for the records the resumes of the potential experts and speakers that may speak; the Staff Report dated 12/7/2021; and the Minutes of the 12/7/2021 Meeting. He also requested to reserve time at the conclusion of the Public Hearing to allow their attorney, Brian Seymour, to cross examine witnesses.

Mr. Tuma proceeded with his formal presentation. He detailed the current changes made since the 12/7/2021 Planning Commission Meeting:

- 1. Building height reduced by 1 floor (5 stories to 4 stories)
- 2. Reduced the number of units to 177 (206 units to 177 units)
- 3. Construct 10 ft. access easement on south side (new street to easement), and
- 4. Four live/work units converted to all commercial space

Rob Rennebaum, Traffic Engineer, Simmons & White, 2581 Metrocentre Blvd, Ste. 3, West Palm Beach, presented the traffic study results for US 1 and Yacht Club Dr. He also stated that former Village Manager Andy Lukasik personally conducted his own traffic study in January 2022 which was presented to Mr. Rennebaum.

Mr. Ahrenholz, Interim Community Development Director, presented the Staff Report. He provided a detailed update of the project since the December 7, 2021 meeting. The Planning Commission had approved the request by a 5-1 vote at that meeting. Due to concerns from residents expressed to the Village Council, the applicant decided to redesign the project and eliminate the 5th floor waiver request. Without that request as part of the application, the project is no longer required to be approved by the Village Council. Because the project has been redesigned from the originally approved request, the application is back before the Planning Commission for final approval. Staff recommended the addition of 23 conditions of approval to the development order:

- 1. Prior to certificate of occupancy, owner shall provide rental rates and breakdown of workforce housing units for review and approval by the community development department and the Village Attorney. The workforce housing units shall be consistent with Policy 1.B.2 of the Comprehensive Plan. The owner shall submit the rental rates and a breakdown of workforce housing units for review and approval by the community development department on or before January 1st of each year subsequent to the year in which the Village issues the certificate of occupancy.
- 2. The property owner shall host a minimum of 6 farmers market or food truck events per year. - 4. The commercial space adjacent to the two pedestrian plazas is intended to attract the general public to the area. They are appropriate if they provide services, entertainment, and/or retail sales for the general public. The commercial spaces adjacent to the pedestrian plazas shall not be used for non-service-related office space. Permitted uses will be reviewed and approved by the Village Manager and Community Development Director.

- 5. Commercial units are required to obtain a business tax receipt from the Village prior to operating the business

The applicant shall utilize its best efforts to obtain approval of the access point from FDOT. If FDOT does not grant approval, the property owner shall make a payment of \$125,000 to the Village for improvements prior to certificate of occupancy.

- 13. Irrigation plans shall be provided prior to approval of the first infrastructure permit.
- 14. A permit shall be obtained from Seacoast Utility Authority prior to the first infrastructure permit.
- 15. All infrastructure, including but not limited to fire hydrants, street lights, storm drains, etc. proposed on the approved site plan shall be maintained by the property owner. Prior to the issuance of the first infrastructure permit, Applicant shall provide the Village with a performance bond, letter of credit, escrow agreement or other acceptable surety agreement in a form and in an amount approved by the Village Attorney to assure completion of on-site roadways, drainage and utility improvements. As improvements are completed and accepted by the Village, the amount of the performance bond, letter of credit, escrow agreement or other acceptable surety may be reduced by a proportionate amount as determined by the Village Manager in consultation with the Village Engineer.
- 17. The property shall be platted with the proposed access easements, utility easements and the dedication of right-of-way to the Village and the plat shall be approved by the Village Council and recorded in the public records prior to the issuance of a certificate of occupancy.

- 23. The conditions of approval shall be binding on the Applicant and its successors in interest and assigns and a violation of such conditions shall constitute a violation of the Village Code of Ordinances and may be enforced by the Village as set forth in Article VI, Chapter 2 of the Village Code or as otherwise authorized by law.

Mr. Tuma provided a response to the public comments/concerns.

Mr. Rennebaum addressed the DOT/traffic issues and concerns.

Susan O'Rourke, Traffic Engineer, 22 SE Seminole St., Stuart, FL, was present to represent the Village.

Brian Seymour, Attorney, 777 S. Flagler Dr., West Palm Beach, was also present to represent the project. He explained that the plan meets the requirements of the code.

The Planning Commission members asked the applicant about traffic loads on US 1, storm water impacts, to explain trench control structures, lane reduction impact and where the lane reduction sections would occur in relation to the project, why did the applicant withdraw the project previously, uses for the commercial space, what the cost to build the roadway on the south end might be, the lack of walkability within the project, the sidewalk issue along US 1 has not been addressed, whether the surface parking is restricted to the commercial area, whether there are amenities for small children planned, and what commercial spaces are planned to draw customers from surrounding communities. Members were for the diversity of housing, not limiting the project to small commercial businesses and felt businesses that draw visitors would be better, proposed limiting the number of special events, and felt the project would be better placed elsewhere in the Village. They also expressed a desire to remove the two (2) year live/work occupancy component and make it all commercial.

Mr. Tuma addressed the Planning Commission's concerns.

Mr. Seymour reiterated the point of law regarding the approval of the project in that it meets the Village Code despite whether it, the project, is liked by the residents and Planning Commission.

Mr. Rubin explained that the Planning Commission can find that the project is inconsistent with the Comp Plan, and therefore inconsistent with the Master Plan, and therefore do not need to approve it.

Motion: Mr. Hogarth moved to deny the application because the standards for the landscape waiver for the sidewalk easement were not met. Mr. Solodar seconded the motion, which passed 5-2. Mr. Haigh and Dr. Kennedy vote nay.

V. ADMINISTRATION MATTERS

- B. Commission Member Comments:

I. CALL TO ORDER

Chairman Cross called the meeting to order at 6:30 PM.

A. ROLL CALL

All members of the Planning Commission were present except Mr. Hicks.

II. DECLARATION OF EX PARTE COMMUNICATIONS

There were no Ex Parte Communications declared by the Board.

III. QUASI JUDICIAL MATTERS / PUBLIC HEARING

Attorney Len Rubin swears in all persons speaking.

The Chairman allowed Comments from the Public to be heard prior to the start of Item III. A.

Mr. Tim Hullihan, 840 Country Club Dr., addressed the Board members regarding the C-3 Zoning District. He stated that he was invited to meet with the owner of the Twin City Mall proposed project and learned that the property owner was writing his own code to fit his project. Mr. Hullihan advised that the Village, along with Dover Kohl, initiated the rewrite the C-3 Zoning District (Twin City Mall) code through a public hearing process and unfortunately never went through completion with the Village Council. He implored the Planning Commission to not allow the property owner to be able to write code around his design and to encourage the Village Council to adopt the C-3 code that Dover Kohl and the Village had spent the time to create.

A. APPROVAL OF THE MINUTES

The Minutes of the August 2, 2022 Regular Meeting were approved as corrected.

B. SITE PLAN AND APPEARANCE REVIEW

1. Public Safety Building Parking

Application by the Village of North Palm Beach amending the Site Plan for the Public Safety building to add two (2) parking spaces.

Motion: Mr. Haigh moved to table the application. Ms. DeWitt seconded the motion, which passed 6-0.

2. 420 US Highway One Paint Colors

Application by SOVS Holdings, LLC for new building paint colors.

Mr. Ahrenholz presented the staff report and recommendations. The property is a commercial plaza known as The Shoppes at Village Square. The walls are currently yellow with white accent and a metal roof. The proposed wall color will be white Benjamin Moore (OC 150) with accents painted in gray Benjamin Moore (HC 170). Existing building signage was approved as and consists of translucent vinyl Light Blue (#053) letters on white acrylic background and a combination of nationally registered tenant sign colors. Pictures reflecting the existing color scheme of the building and pictures reflecting the proposed white and gray color scheme have been included as attachments to this staff report for reference. Staff recommends approval with no conditions.

The Planning Commissions members discussed why the property owner wants to change the color; whether the signs will stay white; would like elevation drawings with the changes to be submitted; why did the property owner chose gray; would like clarity on what will be painted white and what will be painted gray; whether the panels behind the signs will be painted gray; concerns that gray behind the signage will make the sign too prominent; and whether the insets and triangles in the columns will be painted gray. As the applicant was not present to answer questions, consensus was to table the application until a meeting when the applicant would be present.

Mayor Debra Searcy asked whether the applicant could be asked to choose a different color.

Applicant was not present to represent the project.

Motion: Mr. Solodar moved to table the application. Mr. Haigh seconded the motion, which passed 6-0.

3. Pelican Carwash- Tabled in June 2022

Application by PGA Wash LLC for site improvements to the existing carwash

Motion: Mr. Solodar moved to remove the item from the table. Mr. Hogarth seconded the motion, which passed 6-0.

Mr. Ahrenholz presented the staff report and recommendations. He briefed the Planning Commission members on the previous conditions. The new awning is non-conforming and the applicant will remove it. He also reiterated the Planning Commission's comments from the June 2022 meeting and advised that the applicant has addressed them in the updated site plans, renderings and striping plan. The applicant has additionally proposed to add new landscaping at the base of the building, update the existing cabinet wall sign to match their new branding, and repaint the building to white with a blue roof, per some of the conditions of approval proposed by staff and the discussion by the Planning Commission at the last meeting. Staff proposes the following conditions:

- 1. The largest, most western orange awning shall be replaced with a smaller awning of similar size canopy as before to not increase the nonconformity.
- 2. The blue awning in the front the building shall be removed.

The Planning Commissions members discussed whether any retail tenants remain; whether the applicant will be utilizing the retail space; whether the seating area is located in a retail space; need for traffic direction arrows on striping plan need to be in the correct side; dislike of the vacuum area placement on plan; recommend that double landscape plantings (layered) be used to conceal vacuums; whether the monument sign meet the minimum landscape requirement; whether the tenant cabinet sign have been removed; whether tree plantings are required; and will there only be one fuel pump.

Lorena Serrano, Pelican Car Wash, was present to represent the project. She answered the questions of the Planning Commission.

Motion: Ms. DeWitt moved to approve the application with staff's conditions and the conditions that the graphics and signage lettering be removed from the fuel and pay equipment, ensure appropriate length of parking stalls for the air pumps and are appropriately located, correct the directional arrow and crosswalk striping in the parking lot, add sufficient bougainvillea and an additional smaller plant layered to hide the vacuums from the right of way. Mr. Haigh seconded the motion, which passed 6-0.

C. RECOMMENDATIONS TO VILLAGE COUNCIL

1. Village Initiated Zoning Text Amendment

Amendment to Section 45-27, R1- Single Family Zoning District for regulations to second story size of single-family homes and Section 45-64, Nonconforming Structures.

VILLAGE OF NORTH PALM BEACH COUNTRY CLUB

TO: Honorable Mayor and Council

THRU: Chuck Huff, Interim Village Manager

FROM: Beth Davis, General Manager Allan Bowman, Head Golf Professional

DATE: December 8, 2022

SUBJECT: **RESOLUTION** – Approval of a Contract with D.S. Eakins Construction Corp. to purchase and install a new water service pipe to the Country Club golf course maintenance facility.

Village staff is requesting Village Council consideration and approval of a Contract with D.S. Eakins Construction Corp. ("Eakins") to purchase and install a new water service line from the U.S. Highway One Parker Bridge meter to the Country Club golf course maintenance facility via horizontal directional drilling utilizing pricing established in an existing City of Palm Beach Gardens Agreement for Miscellaneous Public Works Projects (ITB2020-124PS).

The existing water main service line, estimated at over 20 years of age, is deteriorating and causing main line breaks in various places, causing damage to the golf course and disrupting water service to the maintenance facility and golf course bathrooms. Eakins proposes to replace the current pipe with a new 3" DR 9 HDPE pipe via direct bore. The new HDPE pipe will provide better water pressure, optimal flow and a longer life-span.

Village Staff has determined that utilizing the existing Palm Beach Gardens Public Works Contract is in the best interests of the Village, and the Village is obtaining the new water line for the golf course maintenance facility at the most reasonable and fair price. The cost of this Contract shall not exceed \$61,700.00

Account Information:

Fund	Department / Division	Account Number	Account Description	Amount
Enterprise	Golf Course Maintenance / Country Club	L8045-66210	Construction & Major Renovation	\$61,700.00

The attached Resolution and Contract have been prepared and/or reviewed for legal sufficiency by the Village Attorney.

Recommendation:

Village Staff recommends Council consideration and adoption of the attached Resolution approving a Contract with D.S. Eakins Construction Corp. for the purchase and installation of a new water service line from the U.S. Highway One Parker Bridge meter to the golf course maintenance facility at a cost not to exceed \$61,700.00, with funds expended from Account No L8045-66210 (Golf Course Maintenance- Construction & Major Renovation), and authorizing the Mayor and Village Clerk to execute the Contract in accordance with Village policies and procedures.

Village of North Palm Beach

BUILDING INSPECTIONS Discussion

Village Council Meeting November 14th,2022 Village Hall

UPDATE

- A State-wide Building Inspection program requires:
 - Building Registration
- http://www.myfloridalicense.com/DBPR/condostimeshares-mobile-homes/building-report/
 - File Basic building and contact information with the state by January 1, 2023
 - Milestone Inspection December 31, 2024

Statewide building milestone inspections. The bill requires that a condominium or cooperative must have a milestone inspection performed for each building that is three stories or more in height by December 31 of the year in which the building reaches 30 years of age and every 10 years thereafter. If the building is located within 3 miles of a coastline, the inspection must be performed by December 31 of the year in which the building reaches 25 years of age and every 10 years thereafter. If a building's certificate of occupancy was issued on or before July 1, 1992, the building's initial milestone inspection must be performed before December 31, 2024. The milestone inspection consists of two phases. The first phase is a visual inspection by a licensed architect or engineer; if substantial structural deterioration is identified, the second phase commences, including a full assessment of the areas of structural distress. Phase one and two reports must be submitted to the local building official of the local government which has jurisdiction. A renter of a unit will have a right to inspect and copy the association's bylaws, rules and these inspection reports.

A board of county commissioners may adopt an ordinance to require the commencement of repairs for substantial structural deterioration within a specified timeframe after the receipt of a phase two inspection report. **Structural integrity reserve studies.** The bill requires a condominium or cooperative to have a structural integrity reserve study completed at least every 10 years. The study must include a review of the structural integrity and safety of the building related to the roof, primary structural members, floor, foundation, fire protection, plumbing, electrical, waterproofing, and windows.

Condominium and cooperative reserves. Effective December 31, 2024, the bill prohibits the waiver or reduction of reserves for items that are required to be inspected in a structural integrity reserve study. In addition, reserve funds may only be used for their intended purpose.

Summary

In total, there are 79 buildings that meet this statutory requirement in the Village

We will be working with the various HOAs to advise them with what steps need to be taken in the coming months
